Continental terminal  
at Cleveland Hopkins  
International Airport.  
Architect: The Smith  
Group. Glass fabricated  
by Oldcastle Glass®.

Way up! Because with Oldcastle Glass® sound-resistant glazing it will stay nice and quiet inside. That's due to our **sound dampening interlayers that result in a 50% reduction in perceived noise levels.** That's great news for architects and designers faced with shielding a building's interior from increasing exterior noise. Think—airport terminals, building facades in hectic cities or any building adjacent bustling highways.

And sound-resistant glazing is merely the beginning of **the most comprehensive collection of architectural glass products available anywhere.** Call **1-866-653-2278** for more information or to speak with an architectural glass specialist, or visit us at [www.oldcastleglass.com](http://www.oldcastleglass.com) and **do more with glass.**

According to the U.S. Department of Transportation, noise levels have risen at an unprecedented rate over the past 30 years. Our sound-resistant interlayers can reduce those levels up to 50%.
